### Details

Estimate for the replacement of apartment water mains control valves. As discussed with management we would carry out replacement on the basis of completing a full water main dropper over a period of an agreed time frame. (Example 1 dropper per allocated day over a period of 5 hours).

We estimate that there are approximately 237 valves of which about 210 may require replacement. (Some valves have been replaced in the past year or 2). Some apartments may require additional parts &/or labour in the event the bathroom has been renovated & the spindle bodies tiled over or if bathroom spindle body has seized making it difficult to remove. Also if the tap handle & flange require replacement due to age etc they would be charged out at \$10. Finer details would be discussed before work commences.

Materials, .	5,250.00
Labour, .	7,350.00

Total GST 10%	1,260.00
Invoice Total AUD	13,860.00
Total Net Payments AUD	0.00
<b>Amount Due AUD</b>	<b>13,860.00</b>
